

Tasks By Member:

Sanjana Gupta

Helped create + correct ER diagram and relational diagram for parts 1 and 2. Also helped write some sql for part 2. Assisted with part 3 use cases for staff and customer on front + back end.

Junming Qiu

I worked on frontend and backend in login session persistence, staff use cases, styling, creating framework for HTML templates, creating variable SQL statements, and testing.

Harry Rios

Worked on schema design and sql queries in parts 1 and 2. Wrote prepared sql statements in part 3. Helped develop customer and public use cases, front and back end.
